Tripura Biodiversity Board has three goals, (i) Conservation of biodiversity & its documentation, (ii) Sustainable use of biodiversity and its components, and (iii) Fair and equitable sharing of benefits arising from the use of genetic resources. After enacting the Tripura Biological Diversity Rules in the year 2006, Tripura Biodiversity Board is working closely for the conservation of biodiversity of the State. In this aspect all the Biodiversity Management Committees (BMCs) at Village/ Block/ MC-NP/ District level are constituted and also documented the People's Biodiversity Registers (PBRs) of the BMCs in the State under the provisions of the Biodiversity Act, 2002 and Tripura Biological Diversity Rules, 2006

BMCs are empowered to levy fee for the commercial use of biodiversity elements listed in the People's Biodiversity Registers (PBRs). Besides JFM Committees, the BMCs are one of the strongest legal entities fully empowered to link biodiversity conservation with economic benefits of the people of the given village.

Any person seeking access of any natural bio-resources from Tripura for commercial purposes should sign an ABS Agreement with Tripura Biodiversity Board. For Details contact [www.biodiversity.tripura.gov.in](http://www.biodiversity.tripura.gov.in) or Mobile: 8259891830.
